Borgata Goes Clean Air

Borgata to be first Atlantic City casino to go 100% smoke-free

In an effort to best accommodate our customers -- smokers and non-smokers alike -- Borgata Hotel Casino & Spa has submitted plans to the NJ Department of Community Affairs (DCA) that will make the resort the first 100% smoke-free casino in Atlantic City. To accommodate smoking guests, Borgata will offer several outdoor lounges that will be designated smoking areas. These outdoor spaces will offer guests a comfortable, climate-controlled environment reminiscent of Borgata.

We feel this decision will best maintain the fresh, upscale atmosphere associated with Borgata, while accommodating both smokers and non-smokers alike.

Subject to NJ DCA approval, the plans will take effect in compliance with the Atlantic City smoke free ordinance.
